GENERAL INFORMATION

The training is addressed to clinicians, biologists, data managers, principal investigators and researchers.
The official language is English.
ECM credits will not provided.
Max n. of participants: 30.

HOW TO REGISTER

The registration form is available at this link.
Please, fill it by **10th May 2023**.
A selection process will be applied based on the participants' background.
Accepted participants will receive a confirmation email.
The participation is free of charge. Istituto Superiore di Sanità (ISS) will not cover costs in any case for the participation at the course.

ATTENDANCE CERTIFICATE
Participants will get an attendance certificate at the end of the training.

AIMS & OBJECTIVES

The transition to Open Science, even in different EU Member States, is a very different thing because of specific national, cultural and academic contexts. In this light, the main purpose of this training is to introduce the principles of biological and medical sensitive data and medical applications, access to data resources and data FAIRification (especially for health research and health care data) organised by ISS.
